EXPERIENCE

Nethermind

Product Designer

May 2024 – Present · Full-time · Remote

- Led design for **Boop** (boop.it) — palm-based payment & identity app for iOS and Android; end-to-end ownership across user app and vendor app.
- Designed the **Aztec Node Explorer** (mainnet.aztecnodes.xyz) — real-time network dashboard that reached 142+ live nodes across 10+ countries, with 3× node growth in the first 6 weeks post-launch and a peak of ~195 nodes.
- Led **SyntropyX** — multi-chain **DeFi** vault platform (BTC, ETH & more).
- Led **Restaking.Info** — Layer 2 Ethereum restaking analytics dashboard.
- Integrated Claude Code and MCP into the design pipeline — shipping production-ready code alongside Figma files.
- End-to-end ownership: discovery, research, wireframing, hi-fi, developer handoff, and design system maintenance.

NATEEVO

UX/UI Designer

May 2022 – May 2024 · Full-time · Barcelona, Hybrid

- Worked with clients including **ImaginBank** (CaixaBank Group), **WatchesandWonders**, **Manor**, **Samsung**, **SEAT**, and **Towerbank**.
- Led product features and full redesigns across mobile and desktop — from wireframes and prototypes to shipped UI.
- Introduced new mobile apps and web experiences, improving usability and accessibility with measurable conversion gains.
